Kitten Wellness Packages

We know how important your pet's health is. We also know how difficult it can be to afford quality veterinary care. Our wellness packages are available to make that care affordable for you while your special friend receives the best in preventive care.

Red Sweeney, 15 weeks

All wellness packages include the following:

- Free office visits
- Free examinations
- Free health certificates for travel
- Annual diagnostics to detect common parasites
- Ear cytology to detect mites or infection
- Important vaccinations against the most fatal yet preventable diseases
- Vaccine guarantee up to \$1000.00
- Additional discounts on services and products not included in package plans.

Package Details:

The following chart shows general services included with our Kitten Packages. See our staff for more detailed information on included services.

Intestinal Parasite Test:

Roundworms and hookworms are transmittable to humans! This very important lab test is included for your kitten's safety, AND yours!

Ear Cytology:

A microscopic evaluation for your kitten to detect ear mites or bacterial infection.

Core Vaccines:

Rabies Vaccine; Feline Viral Rhinotracheitis, Calicivirus, and Panleukopenia (FVRCP). It is essential for your kitten to receive a series of three FVRCP boosters between the ages of 8 to 16 weeks. A rabies vaccine should be administered at 16 weeks of age.

Non-Core Vaccines:

Bordetella (kennel cough), Feline Leukemia, FIP and FIV boosters are recommended if your kitten fits certain criteria. Ask your technician if your kitten is at risk.

Heartworm Combination Prevention:

Doesn't only protect against heartworms, but also prevents roundworms, hookworms, fleas and ear mites too! Three doses are included in this package.

Pre-Anesthesia Diagnostic Screen:

Complete Blood Count (blood cells, platelets—checks for infection & anemia), Blood Chemistry (liver, kidney, diabetes screen) . These tests help us detect potential problems before your kitten undergoes anesthesia.

Spay/Neuter/Two Foot Declaw Surgery:

Pre-Surgical Physical Examination, Pre-operative pain injection, Placement of IV and administration of fluids, General Anesthesia, Hospitalization, Surgical Monitor, Two Foot Declaw, Ovariohysterectomy or Castration, Antibiotic Injection.

***Platinum Package with both alter and declaw is also available, see staff for pricing details.**

Average Savings:	\$396.02	\$814.57
Additional Discount:	5%	5%

Laser Surgery:

Laser surgery is recommended for spays, neuters and declaws as it decreases bleeding during surgery which means less pain, inflammation, and healing time for your kitty. Laser surgery packages are also available for alteration only or for alteration plus declaw packages.
