Puppy Wellness Packages

We know how important your pet's health is. We also know how difficult it can be to afford quality veterinary care. Our wellness packages are available to make that care affordable for you while your special friend receives the best in preventive care.

Gizmo Guettler, Yorkshire Terrier

All wellness packages include:

- Free office visits
- Free Examinations
- Free health certificates for travel
- Annual diagnostics to detect common parasites

- Ear cytology to detect infection
- Important vaccinations against the most fatal yet preventable diseases
- Vaccine guarantee up to \$1000.00
- Additional discounts on services and products not included in package plans.

Package Details:

The following chart shows general services included with our Puppy Packages. See our staff for more detailed information on included services.

Core Vaccines:

Rabies Vaccine; Distemper, Adenovirus (Hepatitis), Parainfluenza, Parvovirus (DHPP). It is essential for your pup to receive a series of three DHPP boosters between the ages of 8 to 16 weeks. A rabies vaccine should be administered at 16 weeks of age.

Non-Core Vaccines:

Bordetella (kennel cough), Leptospirosis, & Lyme boosters are recommended if your puppy fits certain criteria. Ask your technician if your puppy is at risk.

Intestinal Parasite Test:

Roundworms, hookworms, and whipworms are transmittable to humans! This very important lab test is included for your puppy's safety, AND yours!

Ear Cytology:

A microscopic evaluation for your puppy to detect ear mites, bacterial or yeast infection.

Heartworm Prevention:

Doesn't only protect against heartworms, but most prevent roundworms and hookworms too! Three doses are included in this package.

Pre-Anesthesia Diagnostic Screen:

Complete Blood Count (blood cells, platelets—checks for infection & anemia), Blood Chemistry (liver, kidney, diabetes screen) . These tests help us detect potential problems before your puppy undergoes anesthesia.

Spay/Neuter Surgery:

Pre-Surgical Physical Examination, Pre-operative pain injection, Placement of IV and administration of fluids, General Anesthesia, Hospitalization, Surgical Monitor, Ovariohysterectomy or Castration, Antibiotic Injection.

***Platinum Ear Trim Package also available.**

Laser Surgery:

Laser surgery is recommended for spays, neuters and ear trim surgeries as it decreases bleeding during surgery which means less pain, inflammation, and healing time for your puppy. Laser surgery packages are also available for alteration or ear trim packages. These are the elite PLUS plans. Ask our staff today for pricing and additional benefits when you enroll.
